

# Coin Counter 1371

Compact coin counters

# 1371 coin counter

The ultimate in high speed coin counting – up to 3,700 coins every minute.

Designed with accuracy and efficiency plus operator convenience as a must, the counter features an easy to operate front mounted control panel with a clear LED display. The low profile of the 1371 makes it easier for the operator to load heavy bags of change into the bulk hopper, which will hold approximately 10,000 pre-sorted coins depending on denomination and size.

State-of-the-art reliability stems from the use of a heavy-duty mechanism and the latest electronic sensing technology. During operation coins that cannot be counted or that are smaller than the programmed size are diverted to a reject box whilst larger coins stay in the hopper.

Ideal for use in gaming/amusements, vending, and car parking operations or any industry where coins are handled, the 1371 offers the flexibility of four easily selectable preset batches for any number of coins up to 9,999 and can easily be adapted to count Euro.

Counting method: Electronic counting

Coin diameter: Minimum 15 mm  
Maximum 38 mm

Coin thickness: Minimum 0.8 mm  
Maximum 3.6 mm

Counting speed: Approx. 3,700 coins per minute

Preset batches: Four preset batches of any number up to 9,999

## Specifications

**Dimensions:** W 30 cm x D 50 cm x H 34.5 cm

**Weight:** 21kg

**Hopper Capacity:** Approx. 10,000 coins

**LED Screen:** Count 5 digit, Batch preset 4 digit

**Power Consumption:** 100W

## Accessories

Reject coin bag holder

RS-232C 2-channel interface

Remote piece count display

Double bag coin holder

Processes  
2017 £1 coin.

**GBP coins counted:** 1p, 2p, 5p, 10p, 20p, 50p, £1 and £2.

**Accuracy:** 99.995%
